difference

THE DC SERIES NEMA 1 ENCLOSED CONTROL TRANSFORMERS OFFERS GREAT FLEXIBILITY FOR REDUCED INVENTORY AND MULTIPLE VOLTAGE APPLICATIONS. THESE GENERAL PURPOSE CONTROL TRANSFORMERS DELIVER SUPERIOR PERFORMANCE, SILENT OPERATION AND RUGGED MECHANICAL DESIGN FOR ALL TYPES OF APPLICATIONS.

Features

- V.V.I. (Vacuum varnish impregnated and baked)
- **DC Series:** Standard junction box enclosures

Electrical Specifications

- Single-phase
- 600V Class
- 25 to 6,000VA

Options Available

- Special voltage and VA's
- Special lead lengths
- Screw terminals
- Custom winding configurations
- Electrostatic shield
- Fuse holder
