V1K SERIES DV/DT FILTERS,
A RELIABLE SOLUTION
PROTECTING THE CABLE
AND MOTOR INSULATION BY
REDUCING THE DAMAGING
EFFECTS OF REFLECTED WAVE.
THE SUPERIOR PERFORMANCE
INCREASES PROCESS UPTIME
AND MOTOR LIFE.

- Exceptional motor and cable protection in a compact design
- Common mode current reduction of at least 30%
- Limit peak voltage
- Reduce bearing pitting and fluting

Features

- Single motor or multiple motor capable
- Efficiency is greater than 98%
- Compact design, reduced filter size, smaller mechanical layout

Electrical Specifications

- Three-phase
- 600V Class
- 2 to 750 Amps
